Compost and other Soil Amendments Available!

Featured Product: The Urban Compost Tumbler

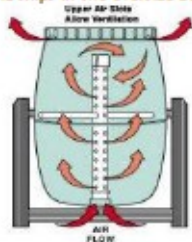

Made in Southern CA!

Every plant enthusiast knows the advantage that quality compost has on your plants and flowers, but few have the time, space, or energy to create their own compost. The Urban Compost Tumbler has been designed and tested for ease of use to make it the perfect solution. It takes up minimal space and seals in unappealing odors. The patented Core Aeration System means you will get results in weeks, not months; and it renders top of the line compost.

Specifications:
Made in the U.S.A. of 100% recycled plastic. Except for the optional pivot rod sleeves, all plastic is primarily HDPE #2.

Capacities: 9.5 cu. ft., 7.6 bushels, 71 gallons
Base Dimensions: 43" height, 33" wide, 34.25" length
Weight: 70 lbs. and ships in two oversize boxes.

Retail: \$250

Shipping: \$48

Features and Benefits:

- EASE OF USE, No Constant Turning of Compost Piles
- PATENTED CENTRAL AERATION SYSTEM for faster composting time... it's the OXYGEN
- LOW MAINTENANCE, No Cranks and Rollers to get clogged up & No metal parts to rust
- DESIGNED, for today's fast paced lifestyle
- KID & PEST PROOF/RESISTANT, Fully Enclosed, Off-the-Ground Unit
- AVOIDS ODOR problems with most Composting Piles
- AIDS IN MOISTURE CONTROL in Excessively Dry or Rainy Climates
- PROVIDES INSULATION to Aid Heating of Compost
- PORTABILITY, as the UCT can be moved about your Yard
- TOOL FREE mixing & turning of the compost materials
- 60-DAY GUARANTEED satisfaction or your Purchase Price back ... UNCONDITIONAL
- 10-YEAR WARRANTY

Retail: \$200
Shipping: \$38

Capacities: 55 gallons, 7.3 cu. ft., 6 bushels

Base Dimensions: 33 1/2" x 26"

Weight: 35 lbs.

Made in the U.S.A. using recovered used barrels from pickle factories!
Stand is made of TREX Deck (plastic lumber) which is made from things like recycled stretch film, plastic grocery bags, and paper.

Backporch ComposTumbler

The smaller size makes this composter ideal for the urban dweller or the children's garden. Even with the small size, compost in 4 to 6 weeks!

Retail: \$220

Shipping Weight: ___ lbs
Dimensions: 37Hx31Wx26D

30 gallon Tumbler

Made in Pennsylvania, USA
-Made with heavy-duty Polyethylene
-Includes Aerator/Drainage units and screened vents
-Turning grooves make it easy to turn the drum, even for young children.

Compact ComposTumbler

The Compact size was developed in the 1990's specifically for home composting by suburban gardeners and homeowners who gardened on smaller properties. It has all the same quality and speed of the bigger model, with half the capacity.

Retail: \$300

Dimensions: 43Hx42Wx33D
90 gallon Tumbler

Made in Pennsylvania, USA
-Made with Galvanized metal, rust-proofed drum, sits 12 inches above the ground
-Includes Aerator/Drainage units and screened vents
-Easy-to-Turn Gear Driven handle.
-Comes with 14-day Composting Guide

Kitchen Composter

Retail: \$70

- Extra wide hatch for easy removal of finished product
- Allows 100% home compost
- Takes all food waste including meat, fish, dairy and cooked food
- Contents can be placed into a traditional home compost bin after a few days
- Silver body with a black lid
- Available as a single or double kit

Or double kit, with extra container and bokashi \$120

Includes 1 container and starter bokashi

Allows 100% home compost to be achieved by tackling the elements of organic waste that cannot be put into a traditional compost bin. The Kitchen Waste Composter is an air-tight container. Bokashi, a bran based material that has been prepared with EM (a mixed culture of naturally occurring friendly microorganisms) is added as a compost activator. The food waste then ferments, allowing it to be safely composted.

- Specs
 - Height: 15" (380mm)
 - Width: 12.6" (320mm)
 - Depth: 10.25" (260mm)
 - Volume: 4.75US Gal. (18L)

The Kitchen Collector

Used in conjunction with a compost bin, the Kitchen Collector is made for easy, mess-free scraping of food waste. Equipping yourself with an attractive, convenient, full-featured kitchen collection bin of the right size and right shape is key to realizing your own successful composting lifestyle.

- 2 gallon (7.5 litre) capacity
- 12"L x 8.5"H x 8.5"D (30.5 cm L x 21.5 cm H x 21.5 cm D)
- Snap latch tightly securing the lid
- 360 degree double rim closure providing fly and odor control
- Oval shape facilitates shape of dishes and cutting boards
- Easy to clean and dishwasher safe.

Retail: \$15

Worm Factory 360, made in Washington State, USA

5-year warranty on parts and workmanship

Made in the U.S.A.

Features:

- Year-round, odor-free operation
- Houses eight to twelve thousand worms that consume 5-8lbs of food per week.
- Built in spigot for "worm tea" collection.
- Easy to assemble and to manage
- Four stackable trays and base with spigot
- 16-page easy-to-use instructional booklet
- "Quick-Tips" lid for easy reference
- Three piece accessory kit
- Complete bedding kit
- Instructional DVD

The newest pets on the block, and the hardest workers!

Your worms will be the easiest animals you've ever cared for, and they make your composting easy. Just feed them your food scraps, and they'll make rich, black worm castings. Nutrient rich, biologically diverse, worm castings add life to your soil, reinvigorating your plants.

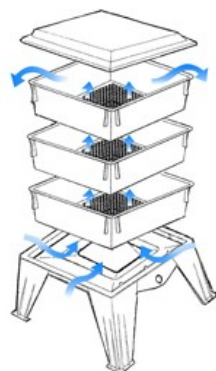

The Worm Factory 360® is a stackable, multi-tray composting system. Worms begin eating waste in the lowest tray, and then migrate upward as food sources in the lower trays are exhausted. By allowing worms to migrate upward, the worms move themselves away from the finished compost that is then ready for your garden. The Worm Factory is not just for the experienced gardener, it is designed so that people of all ages and gardening experience can operate it.

Specifications:

- 4-tray system measures 16" x 16" x 21" Add 3.5" height for each tray added
- made from high-quality post-consumer recycled plastic
- Optimal temperatures: 45 - 85 degrees F
- Empty weight:
 - 4-Tray Factory: 11 lbs (add one pound for each additional tray)

Retail: \$145 with worms

\$120 without worms

Original ComposTumbler

Makes Compost in 10-14 Days!
Easy as 1, 2, 3!
1. Just load it.
2. Give it a few spins, then give it a few spins every day for 2 weeks.
3. In just 14 days take out your finished compost.

Here's the garden composting product that started a revolutionary new way to make compost nearly 40 years ago! It's easy to load. It's easy to turn. It saves time and labor while providing you with a steady supply of your own homemade compost in just two weeks!

Retail: \$430
Shipping: \$50

Compost Accessories and Extras

Compost Turner

\$25

(34 in. / 86 cm long).

Turns compost without resorting to the traditional back-wearying job of removing and reloading by shovel or pitchfork. Simply plunge the Compost Turner into the compost pile; as it is withdrawn, the heavy-duty blades open to aerate and turn the compost. Sturdy, professional quality.
